## DEEP WATER MEETING AT COUNTY SEAT

MASS MEETING TO BE HELD AT DE LAND TOMORROW NIGHT

DAYTONA IS URGED TO SEND GOOD-SIZED DELEGATION TO GATHERING WHICH WILL DISCUSS PROPOSITION.

Keeping up the enthusiasm and pushing the movement for deeper water through Mosquito Inlet another mass meeting will be held tomorrow night, this time at DeLand, and every citizen interested in this subject is urged to attend the gathering at the county seat.

New Smyrna proposes to send a big delegation to the county seat to attend this mass meeting and the delegation from the down river town is anxious to have a good-sized delegation from this city accompany them to DeLand.

## VILLAGE OF PORT ORANGE MOVING TO INCORPORATE

EFFORT HAS PREVIOUSLY BEEN MADE, BUT PROSPECTS FOR SUCCESS SEEM BETTER THIS TIME THAN IN PAST.

Port Orange is again considering the matter of incorporation and the prospects for the accomplishment of this progressive movement appear to be brighter than at any time in the past, for the effort to incorporate this growing settlement is not a new one, the residents of the place having wrestled with the question once or twice before.

With the passing of time, however, the importance of the movement has grown and its friends now feel assured that it will be adopted at an election which will be held next week to test the matter. The names of 25 qualified voters of the territory effected must appear upon the petition for an election of this character and in this case 28 have been secured.

Port Orange has a population of about 300 and in various ways the interest of the majority could be better served by a local government and matters of public good be accomplished that are now impossible.

Some of the older residents, particularly the natives, have been slow to recognize the benefits to be derived from incorporation, but the later comers who are familiar with the progress of other places and desire the advancement of Port Orange are anxious to see the step taken.

## MARKSMEN TESTS WILL BE MORE DIFFICULT THIS YEAR

GUARDSMEN IN CAMP AT BLACK POINT MUST QUALIFY ON ALL RANGES IN ONE DAY TO PASS MUSTER.

Tests of marksmanship for members of the Florida National Guard will be more difficult this year than ever before, according to the officers. The citizen soldiers will meet on the rifle range at Black Point in July.

In order to qualify as marksmen, the guardsmen will be obliged to make all their scores in the same day. Last year, as in previous years, a guardsman might qualify on one range one day and on another range at a later time. Now a continuous test on all the ranges is required.

There will be about 110 men to take the tests as marksmen at Black Point, this being five men from each of the 22 companies of the state. There is considerable interest in the coming test for the Tallafiero silver trophy, now held by Company K, First regiment, of DeFuniak Springs. This cup is shot for each year and there is considerable rivalry among the various companies.

## SUFFRAGETTES ATTACK KING OF ENGLAND

RULER HAS CLOSE CALL TO SERIOUS PERSONAL INJURIES

WOMEN BREAK THROUGH POLICE LINES AND ATTACK CARRIAGE AS KING IS ON HIS WAY TO BUCKINGHAM.

LONDON, March 10.—For the first time since the militant women of Great Britain inaugurated a campaign of violence, the suffragettes today made a personal attack on King George.

Had it not been for the fact that the attack was expected the king of England might have suffered personal injuries at the hands of the mob of women.

The attack was made near Marlborough house as the king was returning to Buckingham palace after having opened parliament. The mob of women suddenly burst through the police guard lines, waving "Votes for women" banners and shouting, "Give us votes," and "Sign the warrant giving us liberty."

The police and soldiers finally succeeded in surrounding the king's carriage and forced the women back. The king remained calm and urged the police "not to handle the women too roughly."

## DIET AND HEALTH HINTS

By DR. T. J. ALLEN  
Food Specialist

### CHOOSING YOUR FOOD.

"Select your food," says Dr.  
Allen, State Food Commissioner  
of Missouri, "with reference  
not to its attractive appearance,  
but for its purity and nutritive  
quality." It is important to  
please the eye, the taste, but it  
is a mistake to put these be-  
fore nutrition. While the pleas-  
ure of eating is not to be ig-  
nored, the essential purpose  
should dominate, the other con-  
ditions being made incidental.  
One who is really hungry can  
eat any wholesome, coarse and  
substantial food, and if the in-  
tentions to eat are reduced to  
the common error of eating to  
please and eating too many  
things at a meal will be over-  
come. It is the inevitable ex-  
perience that with normal con-  
ditions of health, physical, men-  
tal and moral—that are lost  
sharply by the civilized prac-  
tices of preparing and eating  
food—can recover the simple,  
normal appetite of childhood  
and can enjoy any substantial,  
nutritious food.

Warts.  
To destroy warts, make a strong  
solution of common washing soda and  
water. Bathe the warts with this for  
a minute or two, and let the soda dry  
on them; repeat the bathing several  
times a day until the warts disappear.  
Or rub them night and morning with a  
moistened piece of muslin or am-  
monia. They soften and dwindle  
away, leaving no white marks as fol-  
low their disappearance with lunar cas-  
tic.

Opposition.  
A Blair county barrister recently  
handed a brief up to the court in  
which he thus described his two  
brethren on the other side: "They  
are like two ghosts in a country  
graveyard seeking a carcass to de-  
vour."—Philadelphia Record.

Her Dread.  
There is nothing more painful to an  
actress than to appear on the stage  
looking as old as she really is.  
—"My Autobiography," by Madame  
Judith.

Daily Thought.  
Forget ourselves; help us bear  
cheerfully the forgetfulness of others.  
—Robert Louis Stevenson.

## A MAN YOU KNOW.

ROY P. HAMLIN  
County solicitor and one of the  
rising young attorneys of Volusia  
county.

Cossack and Saint.  
A Paris contemporary by way of  
illustration as to how some persons  
discharge their religious obligations  
relates a story of a Cossack who was  
overtaken by a terrible storm of  
thunder and lightning. In his terror  
he prayed to the saint to save him and  
wondered if only he gave more  
prayer and the proceeds should be  
sent in candles in honor of the saint.  
The saint, pleased with so generous  
an offer, stayed the storm and the  
Cossack reached home in safety.

This is how he discharged his vow:  
The next day he went to the market  
with a cock and a horse. His method  
of sale was this: He would only sell  
the two together, the horse at 30  
kopecks (about 15 pence) and the cock  
at 200 rubles (about £20). After a  
time the Cossack found a purchaser  
on these terms and faithful to his  
vow the Cossack devoted 15 pence to  
the purchase of candles for the altar  
of his patron saint.

An Alibi.  
Mrs. Riley—"Is that classical music  
your daughter is playing on the pian-  
ney, Mrs. Grogan?" Mrs. Grogan—  
"No. Three keys don't sound, and  
four stick!"—Puck.

Many Miles of Sausage Links.  
The sausage eaten in this country  
in the course of a year would encircle  
the earth more than six times.

## THE DAILY NEWS—15 Cents a Week

Stevenson's Keen Comment.  
The hit that "Treasure Island" made  
is one of the most pleasant episodes  
in literary history. The story that  
Gladstone got a glimpse of the book  
at Lord Rosebery's house, and spent  
the next day hunting over London for  
a second-hand copy, is good enough  
to be true. Stevenson's own comment  
on his success is levelheaded. If point-  
ed: "This gives one strange thoughts  
of how very bad the common run of  
books that the wise-ones think too  
bad to print are the very ones that  
bring me praise and pudding."

Answered.  
Girl's Father—Before consenting to  
your marriage with my daughter, I  
should like to know what you are  
worth. Young Man—Well, I get \$10  
a week, but I am worth \$50.—Lippin-  
cott's Magazine.

Only a Burden.  
"You have no magnificent ruins  
such as we have in Europe." "No,"  
replied Mr. Cumrox. "I thought of  
putting up a few, but I gave it up.  
They're mighty artistic looking, but  
they're too hard to keep in repair."

By Installments.  
The "epoch-making advice" given  
bookmaker to a colleague in distress  
is related in Vanity Fair. The col-  
league had been paid \$25 on a book  
by a certain captain, who, in a fit of  
absent-mindedness, paid him the same  
amount again next day. "What shall  
I do about it?" asked the bookmaker  
of his friend; and promptly came the  
answer: "Ask him for it again."

Was Not for Him.  
"I've tried to propose to Mabel a  
dozen times, and hanged if I can do  
it! I've slumped every time." "And  
she let you slump?" "Yes." "My  
boy, you are courting the wrong  
girl."—Boston Transcript.

**DIET AND HEALTH HINTS**  
By DR. T. J. ALLEN

**DANGER IN SELF DOCTORING**  
"Self doctoring with operation or drugs," says a contributor to "Life and Health," is often self-murder. There is an old proverb, that at forty every man is either a physician or a fool. Everybody needs to know some law to avoid serious mistakes, and efficiency no one can afford and the same is true of the laws of health, especially diet, but in a case of serious illness or in an effort to attain the best health and efficiency no one can afford to be without the benefit of the advice of a physician. The modern ideal of the medical profession is preventive medicine, in accordance with the proverb that "an ounce of prevention is worth a pound of cure," and the best service of the physician can be given in advice on the maintenance of health, which is the aim of these hints.

**Testing Coins**  
"There goes another man suffering from degeneration of public manners," said the clerk in an aggrieved tone. "I gave him five pieces of silver in making change, and he tested every one of them to see if it was counterfeit right before my eyes. It is only lately that people who buy have got rude enough to do that. Clerks always did it with coin that customers gave them, but that was a prerogative of the trade. For the customer to assume the same privilege is a usurpation of ancient rights. The worst of it is most people nowadays are pretty good judges of bad money, and every little while a coin is refused because it is counterfeit. The only way tradesmen can teach customers the respect due them is to turn their own backs when testing money. That has always been the custom in England. No tradesman over there would dare flip a coin under a customer's nose, and as a consequence no customer has ever taken that liberty with him."

**U. S. Dentistry Abroad.**  
"An American at home, with or without toothache, is not much affected by the sign, 'Painless Dentistry,' but at sight of it in a foreign land he thrills pleasantly," a traveler said. "Its lure is not professional. Every tooth in his head may be perfectly sound, yet if stranded and homesick he welcomes that sign because all over Europe it is a sure indication that somewhere in the neighborhood lives a citizen of the United States. From the northernmost towns of Norway and Sweden to the boundaries of Sahara the words 'Painless dentistry' are likely to hit you in the eye at the most unexpected turning. Usually they are followed or preceded by 'American,' but that qualifying term is entirely unnecessary."

**Called Music Nerve Poison.**  
Frederick Nietzsche agreed with those who found no inspiration in music. Indeed, he regarded music as a nerve poison, and declared that some music—particularly that of Wagner and Tschalkowsky—deranged the minds of many who heard it. Tschalkowsky killed himself after completing his famous "Sixth Symphony," which, as several other have died by their own hands after playing it, has come to be known as the "suicide Symphony."

**Superstitious Burglars.**  
The English burglar is fond of a talisman and pins his faith to a lump of coal, breaking up one piece and adapting another with undiminished trust when he does happen to get captured while carrying it. Often the lump of coal is produced in court as part of the contents of the prisoner's pocket.

**Satisfaction in Life.**  
I would have nobody to control me; I would be absolute; and who but I? Now, he that is absolute can do what he likes; he that can do what he likes can take his pleasure; he that can take his pleasure can be content; and he that can be content has no more to desire. So the matter's over; and come what will come, I am satisfied.—Cervantes.

**Thoughtful.**  
Aunt (with her two nieces at a concert)—Oh, but this is tedious! Let me take your fan, Ida, so I can hide my yawning behind it! Olga—Take mine, auntie! It's bigger!—Fliegende Blätter.

**RIDGEWOOD**  
In place of the weekly card party at the Ridgewood, a bundle party was given at the hotel Friday evening. Each guest had previously purchased an inexpensive article and these were wrapped in bundles, which were then strung around the big assembly room. It was then up to each guest to select a bundle while blindfolded, and a great deal of amusement was caused when the bundles were opened, as each contained some laugh provoking present.

Dancing was the amusement provided for the guests Saturday evening, one of the largest dancing crowds of the season turning out.

Congressman James S. Simmons of Niagara Falls, N. Y., and Congressman S. D. Forest of Schenectady, who registered at the Ridgewood Saturday, spent Sunday in company with R. L. Smith at the inlet.

NEW LAW  
IS AID TO  
ALL HUNTERSMIGRATORY BIRDS WILL BE  
PROTECTED IN THE FUTURE

## NEW MEASURE BRINGS TIMELY

## PROTECTION TO MANY SPECIES

## OF WILD FOWL AND SHORE

## BIRDS.

Hunters in Florida as well as in other parts of the country are very much elated over the passage of the Weeks-McLean bill by congress. This new law will protect the migratory birds in all of the states. In the past the "pothunters" have been slaughtering the birds in all parts of the country. The result is that many species have been almost wiped out.

To stop this slaughter many societies have been organized in all of the states in the Union. Since 1904 these societies have been trying to induce congress to pass a bill which would provide for the protection of these different birds. For several years these bills were pigeonholed by congressmen to which they were referred. This month the committee reported the bill and it was passed the day before Taft went out of office.

The Weeks-McLean bill delegates to the department of agriculture power to regulate the killing of all migratory birds. This will bring timely protection to many species of wild fowl and shore birds that would otherwise soon join the species already extinct, and will also make it possible to cut down the annual loss of \$800,000,000, which is suffered by agricultural interests on account of insect pests, by giving the insect eating birds a chance to increase.

The first bill for protection of migratory birds was introduced in 1894, by Hon. George Shiras, of then a member of congress from Pennsylvania. The bill was referred to the house committee on agriculture, but was not reported. In December, 1909, the Hon. John W. Weeks, of Massachusetts, introduced a measure mod-

ified after the Shiras bill, which was referred to the same committee and not the same fate. In MAY, 1909, Mr. Weeks reintroduced his bill with modifications, and while much interest in the matter was aroused, there was never enough co-operation among those interested to secure a hearing. A later modification of the Weeks bill was introduced on January 6, 1911. At the first session of the 61st congress three bills on the subject of the protection of the migratory birds were presented: the Weeks bill on April 6th, the Anthony bill on April 12th, and the McLean bill on May 17, 1911. All the bills mentioned received the endorsement of sportsmen and naturalists, but it was not until the American Game Protective association secured hearings in March for the last three, that the favorable sentiment of the whole country was brought to bear. The Weeks-McLean bill as passed is a combination of all of them, but is modeled chiefly on an amended form of the Weeks bill.

JOLLY COMEDIAN IN A  
JOLLY SHOW HERE SOON.

The past season has developed an entirely new form of theatrical entertainment. It is nothing else than a musical farce. Someone conceived the idea of using a light force, bringing it up to date and incorporating it with modern life. The idea proved an instant success. It is in this style of entertainment that Billy (Singer) and his company, who are now in the New Daytona, will appear.

The offering is called "The Girl, The Man and The Gun," being a lively farce, with a laugh in every line and interspersed therein no less than 15 musical songs added for good measure. Billy is seen to the best possible advantage and is surrounded by an excellent company and a chorus of remarkably pretty girls who sing and dance in a very acceptable manner.

RETURN OF E. C. T. WILL  
TAKE MANY TO CHATTANOOGA

## BIG PREPARATIONS ARE BEING

## MADE TO ENTERTAIN THE OLD

## CONFEDERATE SOLDIERS MAY

## 27 TO 28.

The preliminary arrangements for the coming reunion of United Confederate Veterans at Chattanooga, May 21 to 25, are being arranged, both in Chattanooga, and in every section where there is any number of veterans to attend the reunion.

It has been 56 years since the war, and the number of veterans living has decreased to a maddening extent, but the enthusiasm of the survivors is more keen if possible than ever before. There is an evident determination among a large number of the southern veterans to attend the 56th anniversary of the battle of Gettysburg, also, as many of the old boys in gray have never been on the field since the memorable battle there.

The newspapers of Chattanooga, having taken in charge the publicity of the coming reunion, are sending out letters to every newspaper in the south in which they are asking the unlimited co-operation of southern papers that every veteran may be brought to Chattanooga, where they will be received with true southern hospitality, and the old time hospitalities of the south will be in evidence from the start to the departure of the men in whose honor the reunion are held.

THE YACHT KENNESAW II  
MAKING CRUISE SOUTHWARD.

The yacht Kenneaw II, hailing from Philadelphia and well known here through former visits, arrived Saturday and tied up for a few days at the Halifax River Yacht club wharf before continuing her cruise to Miami and intervening points, leaving the latter part of this week for Cocoa. The Kenneaw II is in command of Captain N. R. Fitzhugh and has on board her owner, H. E. Richards and a party of friends, who have been enjoying the dock hunting on the upper St. Johns river which was more than usually good this season, and delayed the southern cruise of the yacht later than common.

Anyone who has watched peninsula property knows that it is rapidly developing, that there is but little of it on the market. The plat which we offer is just south of the Daytona Beach corporate limits, and property on either side of it is held at much higher prices.

## JACKSONVILLE TO BE MADE THE HEAD PORT OF ENTRY

EIGHT NEW PORTS OF ENTRY  
ARE NAMED AND OLD ONES  
ARE RETAINED — TAMPA TO  
MAKE PROTEST.

JACKSONVILLE, Fla., March 10 — Jacksonville will be hereafter the head port of customs service in Florida, its collector receiving a salary of \$6,000 per year, and his office being the clearing house for all other ports of entry in the state and for St. Marys, Ga. The total salary list of the collector-in-chief and his deputies over the state will be \$106,993 per annum and rents paid for offices and other headquarters in the state will be \$61,670. St. Marys, Ga., Port Tampa, Punta Gorda, Boca Grande, Miami, St. Andrews, Port Ingle and Carrabelle are made new ports of entry.

The old ports of entry, Apalachicola, Cedar Key, Fernandina, Jacksonville, Key West, Tampa, Pensacola and St. Augustine, are of course continued.

A letter outlining the new change was received in the city by the board of trade from Senator Duncan U. Fletcher. He outlined the features of the new district of Florida, in that Jacksonville will be the headquarters of the service. The Florida territory will include all of this state and the north bank of the St. Marys river, which is in Georgia, and the town of St. Marys in that state.

### Tampa Anticipates Change —

TAMPA, March 10—Because it is believed here, the changes planned by the treasury department in the customs districts in this state will result in Jacksonville being made headquarters, whereas Tampa is by far more important in the matter of customs collected, being ninth in the list of all ports of the United States, the Tampa board of trade is preparing to go actively into the matter of preventing such change.

Secretary Powell has already taken the matter up with Florida's two senators and her representatives in congress.

### THE DAILY MARKET REPORT.

NEW YORK, March 10 — Stocks opened sharply lower on heavy selling in New York and London. Cotton opened barely steady and unchanged to seven lower with May at \$11.79 and July at \$11.72. Later prices began declining still lower. At noon, on vigorous buying, prices of stocks began recovering rapidly.

### The Chicago Markets—

CHICAGO, March 10 — May wheat, 91½c; pork, \$20.07; lard, \$20.72; ribs, \$10.80; hogs, 15 lower.

### NEW GOVERNMENT BOAT ON SOUTHERN CRUISE.

The new government boat, Captain J. J. Meyler, arrived Sunday from Jacksonville and tied up at the Hall-fax River Yacht club wharf until this morning, when she continued her cruise southward. On board the Captain Meyler were Captain J. R. Slattery and his wife and young son. Captain Slattery, U. S. engineer for this district, is making a tour of inspection as far south as Key West.

The Captain Meyler is making her initial cruise in these waters, having only recently been built for the government by the Matthews Boat company of Port Clinton, Ohio, for the Jacksonville station. The boat is 70 feet in length and 14 foot beam and is fitted with two 36 horsepower Buffalo engines which give her a speed of 10 miles or more an hour. She is roomy and comfortable and supplied with all modern appointments, including a hot water system of heating.

### YOUNG DAYTONA COUPLE JOIN HEARTS AND HANDS.

Prentis Yelvington and Miss Grace Sutton were united in marriage Saturday evening at 5:30 o'clock at the home of Mr. and Mrs. Julian Guthrie on South Ridgewood avenue, Rev. D. H. Ruter, pastor of the First M. E. church of this city officiating.

The groom is a son of Wm. Yelvington of this city and is in the employ of C. A. Ballough and the bride, who came to this city from Wheeling, W. Va., a year or more ago in company with members of the family, has made numerous friends here who will unite with the groom's friends in wishing the young couple a happy and prosperous wedded life. Mr. and Mrs. Yelvington will occupy one of the Baker cottages on South Ridgewood avenue.

## WINNING FRIENDS FOR WOMAN SUFFRAGE

While the suffragists of Great Britain are devoting their efforts to arson, bomb-throwing and window-smashing, their sisters in the United States are working in a quieter but perhaps more effective way to win friends for the "cause." The photograph shows a number of well-known Washington women distributing handbills and arguments in the streets.

## SHOOTING ON S. RIDGEWOOD STARTLES THE RESIDENTS

OFFICERS UNABLE TO OVERTAKE  
CAR LOADED WITH JOYRIDERS  
AND SHERIFF WATCHES ALL  
NIGHT.

A succession of shots evidently from a revolver or gun, startled the residents along South Ridgewood avenue about 10:30 o'clock Sunday night and started the police officers on a fast chase to learn the source and cause of the shooting.

The shots are said to have been fired by a bunch of joyriders in an automobile which turned from Ridgewood avenue onto the DeLand road, but Deputies Michael, Parker and Long were unable to overtake the car. Returning to the city the officers telephoned Sheriff Smith in DeLand to watch for the car and arrest the occupants on arrival at the county seat, but word from the sheriff today says an all night vigil resulted in his getting no sight of the car.

### Reversing the Order.

A bishop tells a story of a nervous curate who, in his announcement of the banns of marriage for two couples, made the mistake of declaring that the first couple were "for the first time of asking" and the second "for the third time of asking." Realizing his mistake only when he had finished, the curate nervously added: "And the first shall be last, and the last shall be first."

### LAMB CHOP.

Lamb chop contains about one per cent. less protein than beefsteak and about one per cent. more than pork chop. Its heat and energy value is a little less than that of pork and nearly a fourth more than that of beef. The objections urged against meat in general as food apply less forcibly to lamb chop than to any other flesh food except fresh game. It is urged by vegetarian physicians that, besides other objections to meat in general, the animal tissues are charged with the waste matters that are in all tissues. There is probably most of this in pork stall fed, and least in lamb or goat, most in old cows, especially if tuberculous, and in old pigs.

### FAT IN THE DIET.

Experiments recently made at the Storrs experiment station show that when calves are fed on milk containing a low percentage of fat they do better than on a milk especially rich in fat. The supposition that a certain amount of fat is necessary or beneficial under all circumstances in the daily ration is not correct. Animals do very well without any fat. The liver can produce fat from the starch. The tendency is to use too much animal fat, in the form of lard and other animal products, which, with insufficient mastication, often seriously interferes with digestion by coating the starch and thus preventing the access of saliva.

### "Esquire" Not Understood.

A letter addressed to John Brown, Esquire, rested comfortably in a little town of Germany in the "E" compartment of the post department waiting to be called for by Mr. Esquire. One of the guide books warns against the use of this form of address explaining how it may be mistaken for a name.

### Mosquitoes Attracted by Music.

In some parts of India, where mosquitoes abound, it is impossible to play the violin because the music attracts the insects in great numbers. When the first notes are heard, the mosquitoes swarm in clouds around the player and make the movements of the hand impossible.—Harper's Weekly.

## CONSIDERING EVENING MEAL

"In the near future," says Dr. F. J. Allen, in *Life and Health*, "there will probably be less cooking of complex dishes and dieting. Simpler and more nutritious food will be served, and the food will require little or no preparation aside from simple preparation in every way the best adapted for man's needs. Superfluous foods will be removed. Better health will be enjoyed if more foods were eaten in their natural state." A good way to follow this suggestion is to simplify one meal for some weeks or months and then another. The evening meal may well be made of pears, figs and dates or rice with raisins or baked potato and toast.

## Italian Marriage Brokers

In Italy marriage brokers are a regular institution. They have pocket-books filled with the names of marriageable maidens in various ranks of life, and go about trying to arrange matches. When they are successful they receive a commission, and very likely something extra as a voluntary gift from their customer.

## Hanging Shades

When buying window shades get an extra set of catches. Put one set at the usual place, the other about a foot lower. In cold weather hang the shades on the lower catches and leave the window down from the top. This gives perfect ventilation and prevents the shade from blowing about.

## Papa's Hopes

Judi—"Your baby looks like its mother. It has her nose, eyes, mouth and ears." Pete—"Yes. I have hopes that it will look like me when it gets some teeth."

# RAISING COTTON

Ever since the United States blocked the southern ports early in the Civil war European countries have been trying to raise cotton in their Asiatic and African possessions. In half a century they have not succeeded in doing enough to make any particular impression upon the world's cotton market. The area of the Nile valley is very limited. Cotton of a short staple is raised in India, but only in a moderate amount, and the culture shows little tendency to increase. Russia has long produced her Asiatic cottons in a moderate amount of cotton, and the little dispute over passports for American Jews increased the desire of Russia to reduce its imports from this country, to which and the minister of agriculture has just visited central Asia, but he has returned convinced that little can be done to increase cotton culture.

## Only Success Worth Winning

There is nothing base in failure, but base failure; there is nothing good in success but that which is well won. The applause of triumph is a mockery to him who has not deserved his success; if anything of consequence remains to him such applause must be a positive torture. We always know in our hearts whether we have merited that which comes to us, and it is always sweetened a hundredfold when we know that we really have done something fair and true for it.

## Tailor Before Civilization

Civilization makes a man, and the uncivilized man is in no respect much better than the beast, and in many respects not so good. With the dawn of civilization came the tailor, and with the tailor came higher and higher levels of civilization, men of higher ideals and of greater force both mental and physical.

# GORDON'S BLUNDER

General Gordon's Blunder

When General Gordon was a lad at school he was as mischievous as most boys. When the boys had done any thing wrong they were shut up in a large, bare room with a door and no windows. Gordon was one of the most frequent prisoners in this room, and he used to be annoyed by the boys who were free coming to the door and peering at him through the keyhole. He used to get even, and he procured a large syringe, and taking it with him the next time he went to write lines, he went round to the various desks and stuck up the ink into the syringe.

By and by he heard stealthy foot steps coming down the passage. Nearer and nearer they came and at last halted outside the door. "They are peeping through the keyhole," whispered the future general, and placing the contents through with all the energy he could muster.

There was a smothered exclamation of disgust, and then some one fumbled with the handle of the door. It opened, and in stalked the head master, his face black with wrath and his once snowy shirt fringed black with ink. We must draw a veil over the painful scene which followed.—London *Globe*.

## HART'S EASY JOB

Slept For a Week and Made Enough to Live on For a Year

To sleep for a week's living, says the London *Chronicle*, may appear to some as a very attractive alternative to work, but it is not so. The first has been achieved. In the *Daily Chronicle* of Aug. 9, 1911, the following advertisement appeared: "Nicholas Hart, who slept last year at St. Bartholomew's hospital, intends to sleep this year at the Cuck and Bott in Little Britain." Some further particulars of this professional somnolent are to be found in the *Spectator* for Oct. 1 of that year. It appears that Hart was every year seized with a periodical fit of sleeping, which began on Aug. 5 and ended on the 11th. Its various stages are thus described:

"On the last of that month he grew drowsy; on the 2d, appeared drowsy; on the 3d, fell a-sleeping; on the 4th, began to nod; on the 5th, dropped asleep; on the 6th, he began to snore; on the 7th, turned himself in his bed; on the 8th, recovered his former posture; on the 9th, fell a-sleeping; on the 10th, about midnight, awoke; on the 11th, in the morning, called for a little small beer." This performance, it is asserted, gained for Hart "enough to support himself for a twelvemonth."

## Polished and Vigorous

Observing a passenger with the unlighted butt of a cigar in his fingers, the street car conductor requested him to put it out.

"It is out, you chump," responded the passenger.

"Pardon me," resumed the conductor. "If I have failed to make myself clear. The condition to which I had reference was not one of mere temporary non-combustion, but of elimination, the eradication, I might say, of the physical presence of your nicotine laden remnant; this process followed necessarily by cessation of the odor now permeating an atmosphere already somewhat deficient, I fear, in the essential element of ozone. I'm a humble conductor, and my aim is to please; but, you big porcine stiff, you throw that cigar through the door or I'll throw you and it both. See?"

"Excuse me, professor," replied the passenger meekly, and the incident was closed.—Philadelphia *Ledger*.

## Running as Exercise

The fact that a person is capable of doing the best running and speed walking before the thirtieth year need not lead those who have passed the third decade to think that they are on the down grade of life, says an authority. These exercises call for elasticity of the arteries, and that lessens soon after the thirtieth year, but powers of endurance increase in the well preserved man or woman up to fifty or fifty-five or even later. Soldiers of fifty are like leather and can perform feats of endurance that would kill the stripling, and the same is true of women.

## Dame Fortune

"Pa, why do they call it 'Dame' Fortune?"

"Because Dame is feminine. Fortune is symbolized as a woman."

"Why do they symbolize Fortune as a woman?"

"Because she's nearly always late when you have an engagement with her."—Chicago *Record-Herald*.

## Took Wind Out of Their Sails

Addressing one of his southern audiences, Sam Jones once requested all the husbands present who had not spoken a harsh word to their wives for a month to stand up. He shook hands with those who arose and then introduced them to the rest of the audience as the "twenty-seven biggest liars in Tennessee."

## Realistic

"How did the moving pictures of the wedding turn out?"

"Oh, splendidly. They caught the bride when she was knocked senseless by being hit with an old shoe, so that it is just as natural as life."—Chicago *Record-Herald*.

All who have meant good work with their whole heart have done good work, although they may die before they have signed it.—R. L. Stevenson.

# EASY TO GUESS IT.

What Do You Think Is the Answer to This Puzzle Question?

With the next six weeks to arrange Scribner was trembling lest the land lady should hear the beating of his heart and call for a reckoning. Presently there reached his ears the sound of fierce words, as of two striving together in deadly argument. Scribner became aware that Mr. and Mrs. Slumpkins were engaged in unraveling one of their domestic tangles.

At length there came a light tap on the door.

Scribner looked toward the window as a possible avenue of escape. However, before he could make up his mind to try the rain-sodden route the door opened cautiously, and first Slumpkins' bald head appeared and then the rest of him crept slowly in.

In a whisper he advised Scribner not to pay Mrs. Slumpkins, inasmuch as she was not the head of the house.

Scribner acquiesced and Slumpkins disappeared.

A little later another rap on the door, this time more insistent, caused Scribner to look up. It was Mrs. Slumpkins.

"Say, don't pay my old man any money, Mr. Scribner. He won't do nothing but drink it up. This morning I had to let him know who runs this house. We ain't speaking to each other now."

Again Scribner acquiesced.

That was six months ago. They haven't spoken to each other yet, and Scribner goes on his way rejoicing.

Dixie question: What will be the first question they ask when they start speaking again?—Satire.

## TINY ELECTRIC IONS.

Science Says They Are the Smallest Units in the World.

We used to think that about the smallest thing in the world was an atom of hydrogen. In fact, it was taken as the unit by which the atomic weight of all metals was expressed. For instance, the smallest possible division of the metal lead was found to be 390 times that of hydrogen, gold 196 times, etc.

Hand in hand, however, with the modern conception of the nature of the electric current, has come a new conception of infinitude in small things. Now, they say, the smallest thing in the world divisible by the hand of man is the electric ion. This is the individual unit of electricity, the moving part of a current when it passes through a wire. It is so small that it can run through a copper bar at a speed of 186,000 miles a second without turning corners. Electric ions trickle through a copper wire in much the same way as grains of sand through a sieve.

Scientists, armed with instruments considerably finer than grocery store scales, have isolated and measured them and found that their relation to that lightest of all gases, hydrogen, is as one to the seven-tenth power of ten, or, in other words, the fraction representing their relation to an atom of hydrogen is expressed by a million-million-millionth. —Chicago *Record-Herald*.

## Generous Soul

"Now, Jim," said the old lady to her son, who was about to leave the countryside to try his luck in London. "There's plenty of money in that big city, for the streets are said to be even paved with gold."

Jim "had his doubts," but these were quickly removed, for he had barely got out of Euston station when, to his surprise, he espied slyly reposing on the kerb a bright, glittering sovereign. Eagerly he picked it up and walked a little farther on, when he came across a blind man who was begging.

At once his sympathetic heart went out to the unfortunate man, and as he put the sovereign into his hand he said: "Take this, my friend. I can see 'em, the 'em!"—London *Globe*.

## Scared Both of Them

When Justice Maule was on the bench a bullying counsel was one day browbeating an elderly female witness in a case before him. Having hedged her into a state of utter speechlessness, the lawyer appealed to the judge to make her answer his questions. "Why do you not answer, madam?" asked the judge. "Because, my lord, he scares me so," replied the trembling woman. "So does he me, madam," said the judge. —Law Notes.

## Like the Mythical Dragon

If the Malay archipelago is a reptile more like the mythical dragon. It has false ribs that extend the loose skin and form its wings. There is also a frog, with spreading feet that makes a parachute which enables it to flit from tree to tree, and a flying lemur that can spread out its whole body like an umbrella and leap and fly a hundred feet at a time, from the top of one tree to another.

## Preaching and Practice

"Isn't it horrid," remarked Miss Swifty to her friend—"Isn't it horrid that men will put these nasty old pipes into their mouths?"

"Yes," said her friend emphatically as she stooped and tenderly kissed the black face of her pet pug—"Yes, indeed it is."—Pearson's.

## A Suggestion

"John," said Mrs. Suthers, "where can I get a set of resolutions passed by our Civic Sorority yesterday engraved?"

"I really don't know, my dear," said Suthers. "Why don't you have them embroidered?"—Judge.

Accuracy is the twin brother of honesty.—Stimmons.

# Man Converses With Animals

Charles Kellogg of California has started out to convince the Harvard faculty of his ability to talk with animals. His life has been spent in the Sierra Nevada, and his studies include the vocal sounds made by bears, squirrels, lizards, rattlesnakes and crickets. Indeed, he claims proficiency in fifteen animal languages. He has a peculiar palate, with no tonsils, and entirely lacks the cord connecting the teeth with the lips. To these peculiarities he partly ascribes the ease with which he imitates the sounds of insects and animals. Some of his observations and ideas are, it is said, at least interesting, if not convincing.

# Concise Epistles

Talleyrand could write a short letter. When a woman wrote to inform him of the death of her husband, he simply replied: "Chere Marquise, belas." And among official dispatches there is that of Sir George Walton, who, after an engagement with the Spanish fleet, wrote: "Sir: I have taken or destroyed all the Spanish ships as per margin. Yours, etc." And a later instance was the complaint of Cecil Rhodes that Dr. Jim had upset the apple cart.

News from Florida Briefly Told

It is understood that there are at  
least 100 homes now in course of  
construction in Lakeland.

The shipping of tomatoes is said to  
be keeping the farmers at Fort Lau-  
erdale busy. So far very good prices  
have prevailed.

Preparations are said to be pro-  
ceeding satisfactorily in St. Augus-  
tine for the Ponce de Leon celebra-  
tion. The list is nearly complete of  
the large number of men who will  
take part in the parade and tableaux  
and many of the volunteers are al-  
ready drilling regularly and getting  
ready for the event.

Claiming that he used for his own  
benefit \$50 which she gave him to  
deposit in a Panama bank to her  
credit, Florida Sanford, a negro,  
has caused the arrest of W. A. Jones,  
a negro preacher, on the charge of  
embezzlement and he was bound  
over from the recorder's court to the  
county authorities. He will be given  
a preliminary hearing in a day or  
two.

Mrs. Mary E. Scott of New York  
City has purchased what is known as  
Sherman's Point, about five miles  
north of West Palm Beach on the  
shore of Lake Worth, from Mrs.  
Mamie Mathias, and with the aid of  
her son, intends to have erected  
there an old ladies' home. Plans will  
be put into execution at once for the  
erection of a suitable building. Mrs.  
Scott's purpose in erecting the home  
is purely philanthropic, and she ex-  
pects no pecuniary gain from the  
venture.

No Duplicates Here.  
If in this month of weddings all the  
brides-to-be copied the little brides of  
Holland they would not have so many  
duplicate gifts. The practical folk of  
the Netherlands consult the bride as  
to what she needs, and she has a list  
from which each article is checked  
off as it is "taken" by a prospective  
donor. This list is kept as an heir-  
loom, so that every generation knows  
what has been given to its grand-  
mothers. Incidentally, the list has al-  
most the value of an inventory.

Stevenson's Criticism.  
Robert Louis Stevenson once went  
to hear Charles Halle play the piano  
at the Queen's hall. After the per-  
formance Stevenson, in his black  
shirt, walked in silence out Regent  
street to Oxford circus. He stopped  
at Oxford circus and, in a slow,  
meditative voice, pronounced this  
excellent criticism on the English  
musician he had heard: "The man-  
ner of the elderly statesman at the  
piano was somewhat austere and  
chilling."

Important Question of Dress.  
Lord Chesterfield says: "I would  
rather have a young fellow too much  
than too little dressed; the excess on  
that side will wear off with a little  
age and reflection." To be as well  
dressed for all occasions as a man's  
means will permit shows self respect  
and not conceit as ignorant people  
sometimes imagine. Society in-  
variably looks on young men with a  
partial eye, but it likes to see them  
well dressed.

**HIGHLY COLORED FUN.**

Grotesque Sport That is a Part of the  
Holi Festival.

The curiously childish horseplay of  
the Holi festival, which is celebrated  
annually by the maharaja of Patiala,  
is described by Mrs. Charles Bertram  
in "A Magician in Many Lands." The  
author made the acquaintance of the  
famous Hindu ruler during a tour of  
India and was invited to remain over  
for the festival.

Early in the morning I went to the  
club, where I found many of the  
guests, who were taking part in the  
ceremony for the first time. We were  
provided with a complete new suit of  
Hindu garments, and our dressing  
was superintended by the maharaja's  
servants. We had camels, elephants  
and victorias provided for us. I was  
on an elephant in a kind of box, and  
we drove in procession to the palace  
in the native city.

We were received with great acclai-  
mation by the natives, and I was led to be-  
lieve that it was to be a decidedly a dis-  
tinct occasion. But I was woefully  
mistaken. The fun had not begun.  
Certain formalities had to be gone  
through before the signal was given.

We took our seats in the courtyard  
of the palace at a long table that was  
loaded with large gilt dishes filled with  
different colored balls as large as  
oranges and filled with Holi powder.  
At a signal the brother of the maharaja  
came to the front of the table and  
saluted the prince, who took one  
of the balls and threw it gently across  
the table, striking the officer on the  
breast.

The ball broke and scattered the  
powder over his costume. Then there  
was a general scramble, and in less  
time than it takes to write hundreds  
of balls were flying about, their many  
colored contents scattered broadcast on  
the crowd. Next baskets of loose pow-  
der were thrown upon us in handfuls.

It was no use to expostulate. The mo-  
ment you opened your mouth some-  
body filled it with powder. The battle  
grew fast and furious, when suddenly  
an enormous stream of water from a  
fire engine drenched everybody. The  
colored powders became wet and, ming-  
ling together, dyed us all in brilliantly  
variegated hues.

After this sort of thing had gone on  
for half an hour it ceased by mutual  
consent, and we returned to the pri-  
vate gardens of the maharaja, where  
we were most unceremoniously pitch-  
ed into a tank of running water. I  
was dyed a deep scarlet all over my  
body, and it was fully a month before  
the color entirely disappeared from my  
face and hands.

**She Knew the Symptoms.**

There is a certain bright English  
actress who comes over here every  
year or two to play an engagement,  
says the Saturday Evening Post.  
Among her admirers on this side is a  
middle aged theatrical man of a seri-  
ous turn of mind. He is courtly, but  
has been called tiresome in conversa-  
tion. One afternoon at her suit in a  
New York hotel the sprightly lady was  
brewing a dish of tea for a couple of  
newspaper men. The telephone bell  
rang, and the hostess answered the  
call.

"Yes," she said, "this is Miss Blank.  
Who? Oh, Mr. Blink calling. Is it?"  
Then, in a tone of weary resignation,  
"Very well, send him right up." She  
hung up the receiver and turned to the  
newspaper men.

"Boys," she said, "you'll have to tol-  
dle away. My sick headache is com-  
ing on."

**The Gold Lions of Peking.**

Fronting the imperial palace at Pe-  
king are two beautifully carved lions  
of enormous size which, if we are to be-  
lieve the mandarins, are of solid gold  
and have been there since time im-  
memorial. When the combined armies  
of England and France advanced on  
Peking in 1860 the Chinese painted  
these statues gray in order to make  
the Europeans believe that they were  
of bronze and therefore to insure  
against their being melted. Later, dur-  
ing the Japanese war, these lions dis-  
appeared for a time, but at the con-  
clusion of peace they reappeared in  
their original position. The value of  
these relics is said to be incalculable,  
and they are in native eyes a symbol  
of the unity of the empire.—Harper's.

**Algebra.**

The science of algebra is said to  
have been the invention of Mohammed  
of Buziana about 850 A. D. The sci-  
ence was introduced into Spain by the  
Moors. The first treatise on the subject  
in any European language is believed  
to have been that by Luca Pacoli in  
1494. The first English algebra was  
written by Robert Recorde, teacher of  
mathematics at Cambridge, about 1557.  
He was the first to use the sign of  
equality.

**Killing Time.**

Perhaps the busiest time of the year  
in old colonial days was November,  
called "killing time." When the chosen  
day arrived oxen, cows and swine  
which had been fattened for the win-  
ter's stock were slaughtered early in  
the morning that the meat might be  
hard and cold before being put in the  
pickle. Sausages, rolliches and head-  
cheese were made, lard tried out and  
tallow saved.

**Changed.**

"When my two girls were born I  
used to wonder what I was going to  
make of them."  
"And now?"  
"Now that they're grown up and in  
society I've begun wondering what  
they're going to make of me."—Detroit  
Free Press.

A contented spirit is the sweetness  
of existence.—Dickens.

**THE GRANDEST OF**  
**INAUGURATIONS**

Inauguration of Messiah's King-  
dom Will Eclipse All Others.

It Will Be a Marriage Feast and an In-  
augural Ceremony Combined—Jesus'  
Victory Through Death Constituted  
His Divine Election to Be King of  
Kings and Lord of Lords—Immedi-  
ately He Betrothed a Bride—Cantu-  
ries of Wedding Garment Preparation.

Washington, D. C., March 8.—Pas-  
tor Russell arrived here this morn-  
ing on his return from Panama,  
Kingston, Havana,  
Key West, Tampa  
and Pensacola. He  
took for his text  
Jesus' words,  
"When the Son of  
Man shall come in  
his glory, and all  
the holy angels  
with him, then shall He sit upon the  
Throne of His glory." (Matthew  
25:31.) He said:

When our thoughts go back to the  
transgression of the Divine command  
and came under the sentence, "Dying thou  
shalt die," he was cast out of Eden.  
that in the unprepared earth he might  
pay the death penalty. Even then, in  
the declaration that the Seed of the  
woman would eventually bruise the  
serpent's head, God implied an ulti-  
mate victory for humanity over Satan,  
sin and death.

Later, God's Covenant with Abra-  
ham told that victory would come  
through his posterity, but did not ex-  
plain how. Centuries later, Abra-  
ham's favored posterity, Israel, came  
into Covenant relationship with God  
through Moses. Their hope was to  
keep God's Law so thoroughly as to  
merit everlasting life, and be com-  
petent to deliver humanity from sin and  
death. However, centuries of effort  
proved that none could keep the Di-  
vine Law satisfactorily.

The next Divine lesson was one of  
faith. Israel could not keep the Law  
satisfactorily—could not, therefore,  
have everlasting life, could not teach  
others to do what they could not do.  
The lesson of faith was that they  
should look forward to a coming Mes-  
siah—"a Prince and a Savior."

Various were their hopes respecting  
Messiah. The promises were scanned  
to note something concerning Him.  
Through the prophets God foretold that  
Messiah was to be the antitype of both  
David and Solomon, of Aaron and Mel-  
chizedek—very great. He was to reign  
from sea to sea. (Psalm 72:8.)

Israel looked forward with pride to  
the day when Messiah would exalt  
them very highly in the earth, and as-  
sociate them with Himself in blessing  
all people. These good hopes have held  
them together as no other people have  
ever been held. They are still waiting,  
though disconcerted by the evidences  
that others are in some respect more  
favored than they.

**Messiah and the Jubilee at Hand.**

At last Israel's Star of Hope is ris-  
ing! At last the prophecies tell that  
her morning of joy is about to dawn;  
and that "the desire of all nations shall  
come." Not merely are Jews claiming  
that Messiah's Day is nigh; but Chris-  
tian Bible students see the same. Mo-  
hammedans also see. Free Masons  
claim the same. All men are in ex-  
pectation of something wonderful.  
The multiplied blessings in the in-  
ventions of the last half-century be-  
speak the New Dispensation. If the  
preparations are so grand, what will  
be the Inauguration and Reign itself!

**Inauguration Scene of Our Text.**

Leading in the grand procession pic-  
ture is the Son of Man, following  
whom are all the holy messengers; but  
with Him upon His Throne will be His  
Bride class—a saintly few. Thus it is  
written: "When Christ . . . shall ap-  
pear, then shall ye also appear with  
Him in glory."—Col. 3:4; Rev. 3:21.

Grand as have been the inaugural  
ceremonies of the past week, they  
were as nothing, contrasted with the  
glorious crowning Day for which earth  
has waited six thousand years. Happy  
as were the faces which greeted the  
President, the picture was tame, com-  
pared with the joy of mankind when  
they realize what God has wrought!

**Wherein Did the Jews Fail?**

The Jews did not fail. All God's  
promises to them are still theirs. He  
never offered them spiritual favors, or  
suggested taking them to Heaven. The  
strongest promise, even to Abraham,  
was that all the land which could be  
seen would be given to him and his  
seed. Israel's blessings were to come  
through Messiah.

God foretold through the prophets  
that Messiah would suffer. The Jews  
merely fulfilled a part of the Divine  
Program. Had Messiah gone to an-  
other nation, doubtless there would have  
been similar results. At the First Ad-  
vent of Jesus God did more for the  
Jews than He had promised. He gave  
them opportunity of becoming mem-  
bers of Spiritual Israel.

Then Divine favor turned to the Gen-  
tiles, and gave them a similar opportu-  
nity. This work has required nearly  
nineteen centuries, and we believe is  
about completed. The Messiah class  
is about made up. Jesus the Head  
long ago entered into His glory. Soon  
the last members of His Body will  
pass beyond the veil. Forthwith the  
work of blessing the nations will begin.

Mrs. I. A. Barnes and daughter, Miss Katherine Barnes, arrived last Saturday afternoon from Minneapolis, Minn., and are guests at the Clarendon hotel, Seabreeze, for the remainder of the season. Mrs. Barnes and daughter are sister and niece of Mrs. W. E. Blodgett of this city and Fairbank, Minn., and have visited Daytona in past seasons.

Mrs. W. H. Rowe, who has been the guest of Mr. and Mrs. W. R. Baker at their winter home on the river front south of this city, remaining here after the return of Mr. Rowe, was called north by the illness of her mother and left this morning for Xenia, Ohio, accompanied by C. N. Sparks, son-in-law of Mr. and Mrs. Baker, who has been with them during the season.

A very pretty bridge party was given by Mrs. Hoag in honor of Miss S. Long Wednesday evening. Mrs. Hoag was assisted by Mrs. Sykes, Mrs. and Miss Crosby, Mrs. Lloyd and Miss Conant. Six tables were engaged and the winner of the ladies' prize was found to be the guest of honor, while the gentlemen's prize was won by Mr. Jessup. Pink and white sweet peas were used in decorating. An elaborate luncheon was served at the conclusion of the game.

\*\*I will pay \$250 and no questions asked for return of gold watch, initials, N. B. H. on outside of case in small letters, and ruby ring engraved on inside of band. Those were part of the things stolen from my winter home at Daytona Beach evening of March 5, 1913. Hiram Hunt, 82-85

Mr. M. Jacques, who has been spending the past four or five weeks very pleasantly with his brother, L. J. Jacques, and wife at their home on South Ridgewood avenue, departed this morning on his return to Baltimore, Md., stopping enroute at various points.

## DIET AND HEALTH HINTS

By DR. T. J. ALLEN

### A CASE OF OVER EATING.

A young man, age 20, who wrote me about his case, quit the farm, late in the spring, and went to work as a street car conductor in a large city. He was in excellent health, with a good appetite. A few months later he began to have dull headache and an almost constant sour stomach, with belching. Everybody knows that an alkali will neutralize an acid and a friend advised him to take a little common baking soda in hot water occasionally. The acid condition of the stomach was, of course, neutralized by the alkali, but the pain remained rather worse. There was no cure. Should the acid condition in the stomach be corrected by an alkali, as carbonate of soda, or does nature know what she is about in producing the acid condition? The trouble in this case was poisoning from superfluous food. Farmers require much more energy giving food than street car conductors, but the young man continued eating as he had on the farm. A large reduction in the amount of food was needed, with more thorough mastication and a vigorous walk daily.

### One of Our Own.

### Must Live for Others.

A class which lives only for itself and not for the community of which it is a part is bound to perish. The Nemesis of selfishness is extinction.

### Quite a Stunt.

Before marriage a woman has to pretend she doesn't take a man seriously when she does, and after marriage she has to pretend she does when she doesn't.—The Tatler.

### Her Explanation.

"You asked what the trump was at least a dozen times last night." "Yes, Charley, dear. But I didn't really have to. I did that to show I was taking an interest in the game."

## DAYTONA CITY SHOULD HAVE PUBLIC BUILDING ON RIVER

CITIZEN SUGGESTS THIS IS A LONG-FELT WANT HERE WHICH SHOULD BE SUPPLIED AT THIS TIME.

The approaching of the end of the tourist season, and the prospects of losing the Syracuse Italian band, at least until next winter, has caused the suggestion to be made in the Daily News by a resident of Daytona that this city should take steps toward the erection of a public building on the water front, and that a contract should be made with the Syracuse band to return to Daytona for next season, giving daily concerts in this big, public building.

The suggestion is that such a building should be built over the water and be made large enough to accommodate all gatherings of a public nature and furnish room enough to seat all people comfortably. At the present time the city of Daytona has no such building, and the really proper place to locate such a structure is on the river front, extending out over the water.

With such a building the daily band concerts could be given rain or shine, and there would always be a place for the holding of public meetings of all kinds.

It was even suggested by this citizen that the big houseboat belonging to C. G. Burgoyne and standing in front of his residence on North Beach street could be remodelled into a good building for this purpose.

### Ocean Denizens.

According to Sir John Murray, one of the greatest authorities on oceanography, the bottom is a desert of pitch-black darkness, penetrating cold, and eternal silence. Worms, sea puddings, and coral polyps sluggishly crawl or sway in the almost currentless depths, and only two species of fish, both of them, with much head and little body, have been found deeper than a mile and a quarter down.

### Good Cleanser.

For cleansing glassware, nickel, mirrors, or tinware, take Spanish whiting and wet with cold water to make a thick paste; wet only what you intend to use at the time. Rub this over the article to be cleaned, then let dry; then go over it with another cloth, dry and polish well. The dirt will come off with the whiting and the polish will be very brilliant. This is fine for window glass, as no water is used, and the hands are not wet.

### Fairy Palaces.

Do you know what fairy palaces you may build of beautiful thoughts, proof against all adversity? Bright fancies, satisfied memories, noble histories, faithful sayings, treasure houses of precious and restful thoughts, which care cannot disturb nor pain make gloomy; houses built without hands for our souls to live in.—John Ruskin.

### Didn't Know Stone's Value.

While rummaging through an old chest Mrs. J. S. Wetzel, of Ravenswood, W. Va., came across an old stone that had been given her by a relative 27 years ago, and which she thought had no value. She showed it to a guest at her home and he took it to a jeweler, who declared it an uncut diamond worth \$1,200.

### Concerning Woman.

When God thought of mother, he must have laughed with satisfaction and framed it quickly—so rich, so deep, so divine, so full of soul, power and beauty was the conception.—Henry Ward Beecher.

### Silenced the Tourist.

"Have you resided long in this town?" asked a tourist of the oldest inhabitant. "Yes," he replied, "a long time. Dye see that mountain over yonder? Well, that was there when I came here." The tourist traveled on.

### Victorian Jest.

The diversions of the court included an anticipation of the spelling bee. When a lady of the court spelled "thermometer" with an "a" Melbourne judiciously observed: "It is a very good way to spell it, but not the way."—London Athenaeum.

### Modern Isaiah's.

There are few twentieth century Isaiahs. Nowadays, when the Lord asks, "Whom shall I send?" men don't say, "Here am I, send me"—they send their wives.—Wolman.

## ALL HYPE OF SAVING VESSEL OFF KEY WEST IS ABANDONED

ALL OF PASSENGERS ARE SAVED BUT CREW REMAINS ON BOARD LUGANO, BOUND FROM SPAIN FOR CUBA.

KEY WEST, March 10 — At 1 o'clock this afternoon practically all hope of saving the stranded steamer Lugano, which ran ashore yesterday in a heavy gale, had been abandoned. All of the 115 passengers were taken off last night, but the crew is still on board the vessel.

The ship was bound from Spain to Cuba. Most of the passengers were immigrants. The ship struck 4 1/2 miles off the coast, in the early morning hours yesterday and the tug Rescue went to her assistance after daylight, called by the wireless help call. The reason for the grounding has not been made known.

### Can Always Turn to Books.

If one's intimate in love or friendship cannot or does not share all one's intellectual tastes or pursuits, that is a small matter. Intellectual companions can be found easily in men and books.—G. W. Holmes.

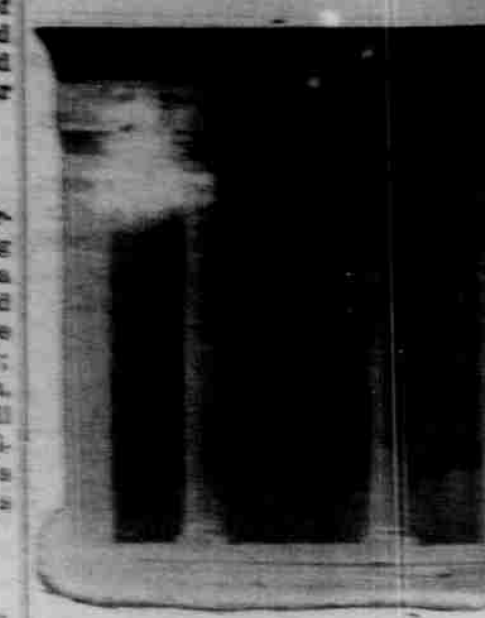

### What Was in Her Heart.

"Tell me," he sighed—"tell me, beautiful maiden, what is in your heart?" The girl gave him a look of icy disdain, and then whispered the monosyllabic, "Blood!"
